

RECOMMENDATION TO OBTAIN DETAILS OF PERSONAL INSURANCE COVERAGE

Outer Banks Physical Therapy recommends that each patient independently contact their insurance carrier(s) to verify physical therapy coverage as well as limitations of said coverage. This includes knowledge of both co-pay and co-insurance amounts, deductible amounts, and any restrictions on the number of PT visits allowed per calendar year of coverage. It is also recommended that each patient know the anniversary date of their policy coverage.

It is the responsibility of the patient to know insurance coverage and to understand they are financially responsible for visits that exceed coverage amounts, co-payment, co-insurance and deductible services not covered in said policy.

I acknowledge the above recommendation.
